

COSC 481
Data Titans
Final Project Ideas

Requirements

- Additional countries (all?)
- Interactive charts
- More chart types: including radio buttons for selection
- Interactive (clickable) map
- Multiple countries on one chart
- Country selection check boxes
- AWS hosting
- Clean up html (eg, remove placeholder footers)

Possible enhancements: What can we do that hasn't been done?

- AI/Machine Learning
 - e.g. analyze each country's expected vs actual performance based on factors such as population density, median age, GDP per capita, etc
- Fact-checking tools
 - e.g. integrate with Twitter
- Trump mockery
